Download 2011 cheat sheet!

Welcome to Total Guitar's Download cheat sheet, packed full of essential festival tips, stage times and must-sees. Print it out, laminate it, or just wrap your chips in it, but make sure that you're not without it when you step foot on Donnington's hallowed turf.

Before you go

Get some wellies and a waterproof

You'd be amazed how onsite prices shoot up in a rainstorm. It's your own beer money you'll be spending if you chance it.

Learn some songs

DO NOT take an acoustic guitar if you don't know how to play a full song on it. You will become annoying to your friends and they will leave you for better people.

Research some new bands

Half the fun of a festival is finding new acts. Why not check out a couple of names you don't recognise before you go? Then see if they can work the magic live.

Acquire wet wipes

The only thing that will make you more repellent at a festival than only knowing half the riff for *Pretty Fly For A White Guy* is forgoing basic personal hygiene.

Get some cash out

Fail to get out cash before you go and you'll soon be stuck in a queue tweeting "FML" comments and paying £1.95 for the privilege.

10 - 12 JUNE 2011, DONINGTON PARK

Top five guitar bands to catch

The Darkness

The Hawkinses are back for an hour of pure, unadulterated rock fun. If you don't get it, fine, but we feel sorry for you and your joyless life.

Clutch

It's not something you're generally in danger of at Download, but if you find yourself in need of a massive riff fix, Tim Sult blasting out *50,000 Unstoppable Watts* should see you through.

Rise To Remain

They're the young guns of the selection, but lead guitarist Ben Tovey is an impressive player who has the moves live too. See them now before their inevitable 2012 mainstage appearance.

Mr Big

The band are back together in their original form, meaning Paul Gilbert's at Donnington. We've taken the liberty of inventing the word 'guitargasm' to mark the occasion.

Children Of Bodom

Your chance to see Alexi Laiho in the flesh and marvel at the copious amount of firewater that he and his bandmates manage to consume without missing a beat.
